

Co/LIGHT

*Next Generation LightWeight Gripper
Optimized for Collaborative Robots*

Co/LIGHT

UniGripper Co/Light is the next generation of UniGripper LightWeight targeted for low-payload robots in general and collaborative robots in particular.

UniGripper Co/Light is designed without sharp edges to enable gentle collaboration combined with impressive vacuum force and ultra-low weight.

The standard version comes with a dense valve pitch that allows even small objects to be picked up without knowing the object's exact position.

Technical Data – Co/Light

Length	265 mm
Width	150 mm
Height	101 mm
Weight	App. 1.8 kg
Valve pitch	15/15 mm
Air consumption	420 NI/min
Robot connection	Included, 4xM6 Ø50mm

Technical Data – Co/Light Mini

Length	150 mm
Width	112 mm
Height	99 mm
Weight	App. 900 g
Valve pitch	15/15 mm
Air consumption	210 NI/min
Robot connection	Included, 4xM6 Ø50mm

NEW! Co/Light Mini is a smaller version of the Co/Light with the same popular design but with lower air consumption, even lower weight and lower footprint.

NEW! The UniGripper Control Box combines a pneumatic valve for vacuum control and a vacuum switch for grip indication. The neatly designed box is easy to integrate and no other pneumatic components are needed for the installation.
